Shawn,

With regard to the draft report, Attachment 3 (regional screening levels) does not lend itself to insertion in the documents because it is a 11 x 17 table. So, I will work on revising the text to provide a reference to the screening summary but not include the attachment. I think I've figured out how to modify Attachment 1.

Jean

Shawn,

I got your message. Either Wed, 2/16, or Thur, 2/17 works for me.

Jean
